

CNC Machining/Routing

Prime Laminating Incorporated

Komo VR 510 Mach One S

- **Versatile! Capable of machining:**
 - Plastic
 - Wood
 - Non-ferrous metal (sheet, plate and bar)
 - Honeycomb core
 - Many other materials
- **Large!**
 - Working area of 60" x 120"
 - Powerful 40HP high flow vacuum hold down system reduces the need for mechanical clamping
- **Fast!**
 - High speed travel (up to 3,150" per minute) reduces process time
 - Aluminum grid vacuum table reduces setup time
 - 15HP-18,000 RPM spindle allows for high feed rates
- **Accurate!**
 - +/- .0004" unidirectional repeatability
 - +/- .0008" unidirectional accuracy
